

CYCLOPS

Passive slimline subwoofer

ALDERWOOD

The Cyclops is a passive slimline subwoofer that delivers powerful bass in small spaces. Designed for indoor and outdoor use, it ensures high-quality sound without sacrificing space or aesthetics.

Mounting flexibility

With multiple mounting socket threads, the Cyclops offers a secure and easy installation.

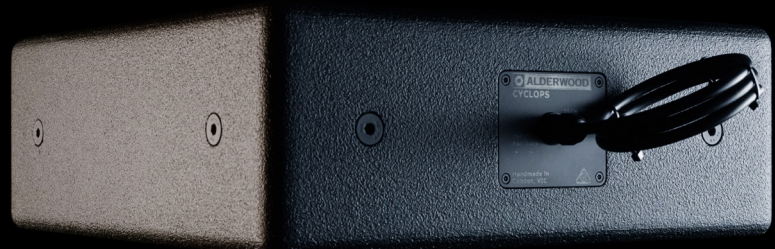

Front	4x M5
Back	4x M5
Sides	8x M8

Hidden luxury

With its slim profile, the Cyclops installs easily into small cavities and recesses.

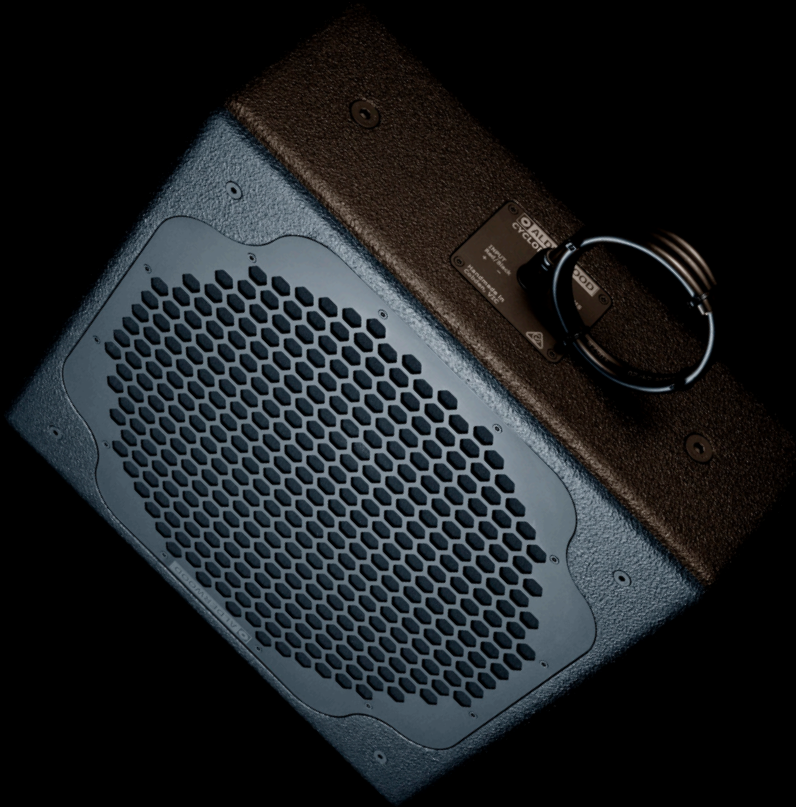

A	Width	34 cm
B	Height	12.5 cm
C	Depth	34 cm

Our recommendations

Caution!

Before operation secure all fasteners to seal the cabinet. Failure to comply may result in irreparable damage.

Installation

Minimum of four secure mounting points required for overhead installation.

Avoid direct rainfall and downpipes for outdoor installation. Ensure downward orientation of the driver to prevent water pooling in the grill.

Amplification

250-300 watts at 8 Ohms with adjustable low-pass settings.

Power	250-300 watts
Impedance	8 Ohms

The finer details

Nominal impedance	8 Ohms
A/C impedance	6.5 Ohms
Power handling	350 watts RMS
Sensitivity @ 1Mtr	85 dB
Frequency range	35 - 250 Hz
Beamwidth	Omni
Input connector	1 meter sealed cable
Dimensions (WxDxH)	34 x 34 x 12.5 cm
Weight	7.2 kg
Cabinet material	Premium birch ply
Mounting socket thread	Front / Back 8x M5, Sides 8x M8
Environmental rating	IP66
Colours	Black / White
Driver size	10 inch long throw
Driver suspension surround	Butyl rubber
Diaphragm maintenance	None
Magnet assembly	High-temp neodymium with copper shorting ring
Moving mass	170 g
Maximum cone excursion	24 mm
Magnetic circuit weight	2.6 kg
Gauss	1 Tesla
